## EDUCATION

**University of Washington, Seattle** Sep 2025 – Jun 2029
*Bachelor's in Economics, Minor in Informatics* *Seattle, WA*
*Dean's List*

## EXPERIENCE

**Arena (arenafi.org)** Dec 2025 – Present
*Founder & Solo Engineer* *Seattle, WA*

- Built and shipped arenafi.org, ranking **68,000+ crypto traders across 44+ exchanges** with real-time performance analytics
- Engineered data infrastructure that collects trading data from exchanges that block automated access
- Designed the Arena Score, a data-driven model that ranks and rates traders across exchanges on normalized historical performance

**Stably (USDS stablecoin issuer)** Apr 2026 – Aug 2026
*Analyst, Internship* *Seattle, WA*

- Worked directly with the CEO on stablecoin and on-chain analytics across research and growth initiatives

**CAIS Lab (Collective, AI, and Interactive Systems), UW Tacoma** Feb 2026 – Present
*Undergraduate Research Assistant, Prof. Wei Cai (PI)* *Tacoma, WA*

- First author of **HasciDB** (hascidb.org), the first open-source cross-project airdrop Sybil-detection database covering **2.54M wallet records across 16 Ethereum projects** (3.2× the largest prior public list), 38% flagged as Sybil
- Built the reproducible detection pipeline and a 0–100 risk-scoring engine over five expert-consensus behavioral indicators, served via a free public query platform
- Co-authored the IEEE SMC 2026 extension on interpretable airdrop governance, using Shapley analysis to show **3 transparent rules cover 78%** of Sybils

## PUBLICATIONS

- **A. Wen**, C. Li, S. Qu, L. Leng, W. Cai. "HasciDB: A Database for Identifying Crypto Sybil Airdrop Hunters." Nanyang Blockchain Conference (NBC), 2026. *Presenting author, NTU Singapore.*
- L. Zastrow, C. Allen, L. Ingold, **A. Wen**, Y. Bai, W. Cai. "Human-Centered Decision Support for Crypto Airdrop Governance." IEEE Conf. on Systems, Man & Cybernetics (SMC), 2026. *Presenting author, IEEE Xplore.*
- **A. Wen**. "When AI Learns to Hide: Upper and Lower Bounds on Behavioral Identification of Automated Accounts." INFORMS Annual Meeting 2026, San Francisco. *Poster presentation.*

## HONORS & FELLOWSHIPS

- **Paradigm Fellowship 2026.** Selected as one of around 30 fellows worldwide for Paradigm's annual fellowship (leading crypto/frontier-tech VC). Northern California, Aug 2026.
- **Y Combinator Startup School 2026.** Selected to attend. San Francisco, CA, Jul 2026.
- **Dempsey Startup Competition 2026.** Investment Round, Top 40 of 174 teams across the Pacific Northwest. Seattle, WA, May 2026.

## SKILLS

**Quantitative & ML:** econometric & statistical modeling, risk-adjusted scoring models, LightGBM, graph & network analysis
**Data Engineering:** large-scale ETL pipelines, database design & optimization, on-chain data analysis
**Languages & Stack:** Python, SQL, TypeScript; BigQuery, PostgreSQL, Next.js / Node.js, Web3 (Ethers.js, Privy)
