EXPERIENCE

Arena (arenafi.org) Dec 2025 to Present
Founder & Solo Engineer *Seattle, WA*

- Built and launched arenafi.org alone, a public leaderboard ranking **68,000+ crypto traders across 44+ exchanges** by ROI and PnL
- Built the data pipeline that pulls each exchange's trading records into one dataset, so traders on different exchanges can be compared directly
- Designed the Arena Score, a single rating that scores traders from every exchange on the same scale

Stably (USDS stablecoin issuer) Apr 2026 to Aug 2026
Analyst, Internship *Seattle, WA*

- Worked directly with the CEO on stablecoin and on-chain analytics across research and growth initiatives

CAIs Lab (Collective, AI, and Interactive Systems), UW Tacoma Feb 2026 to Present
Undergraduate Research Assistant, Prof. Wei Cai (PI) *Tacoma, WA*

- First author of **HasciDB** (hascidb.org), a public database that flags fake accounts people create in bulk to collect free token giveaways, covering **2.54M wallet records**, 3.2× the largest prior public list
- Built the detection pipeline and a 0 to 100 risk score for each wallet, which anyone can look up for free on the site
- Coauthored (4th of 6 authors) an IEEE SMC 2026 paper on human centered decision support for airdrop governance, showing **3 simple rules catch 78%** of these fake accounts
